

## V. Network Settings

1. Power the gateway on and connect it to the 2.4GHz router through the network cable.
2. Ensure that the network configuration indicator (green light) is always on (if the indicator is in other state, long press "Reset button" until the green light is on);
3. Make sure the mobile phone is connected to the 2.4GHz router. At this time, the mobile phone and gateway are in the same local area network;
4. Open the "My Home" page of the TUYA app and click the "+" button in the upper right corner of the page;
5. On the "Select Device Type" page, "Smart Gateway" will appear, click "Add" ;
6. If the "Smart Gateway" is not found on the "Select Device Type" page, select "Smart Gateway" in "Add manually" page and add it according to the APP instructions.

## VI. Packing List
